🔗 portfolio

Summary

A highly motivated and enthusiastic IT undergraduate with a strong foundation in software development principles and a passion for learning new technologies. Eager to secure a Software Engineering internship to apply my full stack skills, contribute to real world projects, and grow within a fast paced professional environment.

Education

2024 – Present

B.Sc. (Hons) in Information Technology,
University of Moratuwa, Faculty of Information Technology

Current CGPA: 3.3 (upto semester 3, out of 4.00)

2022 – 2023

Diploma in Information Technology
E-soft Metro college

2011 – 2019

Pinnawala Central Collage

- G.C.E. A/L (2021) : Physics(A), Chemistry(B), Biology(C) | Z-score: 1.67
- G.C.E. O/L (2016) : 9A

Projects

12/2025 – Present

TeaBlendAI – AI-powered Tea Auction Platform 🔗
Industry Project | Inivois Global |

Technologies : Next.js, Tailwind CSS, MSSQL, FastAPI, TypeScript, Shadcn UI

An AI-powered tea auction platform for the Sri Lankan tea industry. Developed and integrated core authentication, user management, and transaction processing features. Implemented buyer/seller verification workflows, role-based access control, secure API communication, payment gateway integration, and real-time messaging to ensure a reliable, scalable, and secure user experience.

08/2026 – Present

Personal Portfolio Website 🔗
Personal Project |

Technologies : Next.js, Tailwind CSS, Lucide React

A modern, animated personal portfolio built with Next.js and Tailwind CSS, featuring custom canvas animations, an interactive skills showcase, and a responsive multi-section design continuously evolving as a living showcase of my frontend development skills.

08/2024 – 10/2025

LaserTunes -A Laser-Based Musical Instrument

Hardware Project | FIT EXPO 2025 |

Technologies : C++, Arduino Mega, ESP32, Piezo Sensors, VS1053B Audio Codec, Custom PCB

A futuristic, laser-based musical instrument that fuses light, sound, and interactivity. Features 12 laser beams for playing notes, seamless instrument switching, and real-time loop recording. Specifically engineered the integrated Octapad Module, utilizing piezoelectric sensors to add responsive percussion effects and expand the system's creative capabilities.

Technical Skills

Programming & Development

- **Languages:** C, Python, Java, JavaScript, TypeScript, PHP
- **Frontend Development:** React.js, Next.js, Tailwind CSS, HTML5, CSS3
- **Backend Development:** Node.js, Express.js, FastAPI
- **Databases:** MySQL, PostgreSQL
- **DevOps & Tools:** Git, GitHub, Vercel, Linux, Arduino IDE

Professional Skills

Analytical Problem Solving, Project Management, Team Collaboration, Self-Directed Learning

VOLUNTEER EXPERIENCE

2025 – 2026

Mobile Application Development Team Member

Faculty of Information Technology, University of Moratuwa Team 25/26
